#### 1. Nature of operations and going concern

Silver One Resources Inc. (the "Company" or "Silver One") was incorporated pursuant to the provisions of the Business Corporations Act (British Columbia) on June 8, 2007 and completed its initial public offering as a Capital Pool Company ("CPC") on February 29, 2008. As a CPC, the Company's only business had been to identify and evaluate businesses or assets with a view of completing a Qualifying Transaction ("QT").

On July 27, 2016, the Company completed an option agreement with Anstag Mining Ltd. ("Anstag"), constituting its QT under the applicable policies of the TSX Venture Exchange ("TSX-V"). Upon completion of the QT, the Company became a Tier 2 mining issuer on the TSX-V under the symbol "BRV". The Company's name was changed to Silver One Resources Inc. on September 1, 2016, and the trading symbol was changed to "SVE".

The Company's principal activities include the acquisition, exploration and development of mineral properties. On September 26, 2016, the Company completed the acquisition of all issued and outstanding shares of KCP Minerals Inc. ("KCP"), and after this transaction holds three Mexican silver projects: Peñasco Quemado in the state of Sonora, La Frazada in the state of Nayarit, and Pluton in the state of Durango. The Company also entered into an option agreement to acquire a 100% interest in the Candelaria Silver project (the "Candelaria Project") located in Nevada.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months. As at June 30, 2017, the Company had an accumulated deficit of \$2,936,957, and expects to incur further losses in the development of the business. These factors indicate the existence of material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. As a result, the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to continue as a going concern is dependant on its ability to obtain necessary financing to meet its corporate and deferred exploration expenditures and discharge its liabilities in the normal course of business. Although the Company has been successful in obtaining financing in the past, there can be no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

Should the Company be unable to continue as a going concern, asset realization values may be substantially different from their carrying values. These condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to carrying values, and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

Silver One is a public company which is listed on the TSX-V under the symbol "SVE", on the OTC Pink under the symbol "SLVRF", and on the Frankfurt Stock Exchange under the symbol "BRK1".

The Company's corporate office is located at Suite 410-1040 W. Georgia St., Vancouver, British Columbia V6E 4H1

Notes to the Condensed Interim Consolidated Financial Statements For the three and six months ended June 30, 2017 and July 31, 2016 (Unaudited - expressed in Canadian dollars)

#### 2. Basis of preparation

#### a) Change in year end

Effective in 2016, the Company has changed its financial year end from October 31 to December 31 in order to align the Company's year end with that of its subsidiary KCP, which holds a Mexican subsidiary company operating on a calendar year-end. Accordingly, these condensed interim consolidated annual financial statements present the statements of financial position as at June 30, 2017 and December 31, 2016, and the results of operations for the three and six months ended June 30, 2017 and July 31, 2016.

#### b) Statement of compliance and functional currency

These condensed interim consolidated financial statements have been presented in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB') and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The Company uses the same accounting policies and methods of computation as in the annual financial statements for the fourteen months ended December 31, 2016, which should be read in conjunction with these condensed interim consolidated financial statements.

These condensed interim consolidated financial statements have been prepared on a historical cost basis. These condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company's Canadian entities. The functional currency of the Company's foreign subsidiaries is US dollars. The currency translation adjustment resulting from the translation of the foreign subsidiaries' US dollar functional currency to the Company's Canadian dollar presentation currency is charged to other comprehensive income or loss, and included in accumulated other comprehensive income or loss within the shareholders' equity section of the statement of financial position.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

These condensed interim consolidated financial statements were approved by the board of directors on August 22, 2017.

## c) Accounting policies

These condensed interim consolidated financial statements have been prepared on a basis consistent with the significant accounting policies disclosed in the annual financial statements for the fourteen months ended December 31, 2016.

#### 3. Accounting standards issued but not yet effective

The following new standards have been issued but not yet applied. The Company is currently evaluating the impact of these standards on its condensed interim consolidated financial statements.

#### a) IFRS 9 - Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9, *Financial Instruments* ("IFRS 9") bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39, *Financial Instruments: Recognition and Measurement*. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. IFRS 9 also amends some of the requirements of IFRS 7 *Financial Instruments: Disclosures*, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on financial liabilities and the de-recognition of financial instruments. The mandatory effective date of IFRS 9 will be annual periods beginning on or after January 1, 2018, with early adoption permitted.

Notes to the Condensed Interim Consolidated Financial Statements For the three and six months ended June 30, 2017 and July 31, 2016

(Unaudited - expressed in Canadian dollars)

#### 3. Accounting standards issued but not yet effective (continued)

#### b) IFRS 15 - Revenue from Contracts with Customers

The new IFRS 15 Revenue from Contracts with Customers standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. This amendment will be mandatory for reporting periods beginning on or after January 1, 2018.

#### c) IFRS 16 - Leases. IFRS 16 Leases will replace IAS 17 Leases

This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard will be effective for annual periods beginning on or after January 1, 2019.

## 4. Receivables and prepaid expenditures

Other receivables	52,431	-
Prepaid expenditures	71,645	40,292
	138,472	50,801

Other receivables includes amounts due from the subleasing of the Company's office space as well as a receivable related to the reimbursement of leasehold improvements from the landlord. Prepaid expenditures primarily include amounts in connection with insurance, investor relations conferences, and marketing activities.

#### 5. Mineral properties (continued)

On January 17, 2017, the Company entered into an Option Agreement (the "Option Agreement") with a subsidiary of SSR Mining Inc. ("SSR") (formerly Silver Standard Resources Inc.), to acquire a 100% interest in the Candelaria silver project (the "Candelaria Project") located in Nevada.

In order to exercise the option, the Company will be required to:

- issue USD \$1,000,000 in shares to SSR on the date that the parties satisfy the conditions to the Agreement, including obtaining final approval of the TSX-V (the "Effective Date") (paid):
- issue an additional USD \$1,000,000 in shares on each of the three anniversaries of the Effective Date; and
- assume the reclamation bond on the property immediately prior to exercise of the option.

In order to satisfy the initial option payment of USD \$1,000,000, the Company issued 1,332,900 common shares at a price of \$1.00 per share. Upon satisfying the terms set forth above, the Company will have earned a 100% interest in the property subject to a 3% net smelter returns royalty payable to Teck Resources USA on production from a certain claims group of the property and a charge of \$0.01 per ton payable for waste rock dumped on certain claims.

#### 6. Value-added tax receivable

The Company, through its Mexican subsidiary, MTP, pays value-added tax on the purchases of goods and services at a rate of 16%. The amount paid or payable is recoverable and MTP has been successful in applying for and receiving refunds in the past from the local tax authorities. However, there is no guarantee that this will continue and, as such, the value-added tax receivable has been recorded as a non-current asset.

a) Authorized: Unlimited common shares without par value.

#### b) Shares issued

Common shares: 83,330,377 (December 31, 2016 – 81,864,977).

During the six months ended June 30, 2017, the Company:

- issued 1,332,900 common shares valued at \$1,332,900 pursuant to the Option Agreement for the Candelaria Project (see Note 5);
- issued 132,500 common shares for the exercise of options in the amount of \$6,625. A value of \$6,586 was transferred from accumulated other comprehensive income to share capital as a result.

Notes to the Condensed Interim Consolidated Financial Statements For the three and six months ended June 30, 2017 and July 31, 2016 (Unaudited - expressed in Canadian dollars)

## 8. Share capital (continued)

#### b) Shares issued (continued)

During the fourteen months ended December 31, 2016, the Company:

- completed a non-brokered private placement by issuing 25,500,000 post-split common shares (8,500,000 pre-split common shares) at a price of \$0.017 per post-split common share (\$0.05 per pre-split common share) for gross proceeds of \$425,000;
- issued 600,000 post-split common shares (200,000 pre-split common shares) at a price of \$0.017 per postsplit common share (\$0.05 pre-split common share) with a value of \$10,000 pursuant to the Option Agreement with Anstag Mining Ltd. for the Margurete Gold Property (see Note 6):
- issued 6,000,000 common shares at a fair value of \$6,360,000 in the acquisition of KCP;
- completed a non-brokered private placement by issuing 10,000,000 common shares at a price of \$0.25 per common share for gross proceeds of \$2,500,000; and
- issued 940,000 common shares for the exercise of options in the amount of \$47,000. A value of \$46,721 was transferred from accumulated other comprehensive income to share capital as a result.

#### Share split

Effective September 1, 2016, the Company completed a forward stock split of the common shares by way of a stock dividend on a basis of 3 post-split common shares for 1 pre-split common share (the "Split"). As required by IAS 33, *Earnings per Share*, all information with respect to the number of common shares and issuance prices for time periods prior to the Split have been restated to reflect the Split.

#### **Escrow shares**

Pursuant to the regulatory requirements as at June 30, 2017, 1,631,251 issued and outstanding common shares were held in escrow under the CPC Escrow Agreement (December 31, 2016 - 1,957,500). Under the CPC Escrow Agreement 10% of the shares were released on the issuance of the Final Exchange Bulletin on August 4, 2016 (the "Initial Release"). An additional 15% will be released every 6 months following the Initial Release.

#### c) Options

The Company has adopted a share option plan that allows for the issuance of up to 10% of the issued and outstanding shares as incentive share options to directors, officers, employees and consultants to the Company. Share options granted under the plan may be subject to vesting provisions as determined by the Board of Directors.

Options granted in August of 2016 vested immediately. However, on October 3, 2016, the options were modified to include vesting provisions. The vesting provisions of all options are the following: 25% - 6 months from the grant date, 35% - 1 year from the grant date, and 40% - 1.5 years from the grant date.
